Boeing and Vietnam Airlines celebrated the delivery of the flag carrier's 10th 787-9 Dreamliner on November 25, 2016. The airline took delivery of its first 787 Dreamliner in July 2015 and has nine more 787s on order. The Boeing 787 Dreamliner is an all-new, super-efficient family of commercial airplanes that brings big-jet ranges and speed to the middle of the market. Boeing designed the 787 family with superior efficiency, allowing airlines to open new routes profitably and fly directly where passengers wish in exceptional comfort. The 787 family uses 20 to 25 % less fuel with 20 to 25 % fewer emissions than the airplanes they replace.

Since entering service in 2011, the 787 has flown more than 125 million passengers on more than 530 routes around the world, including more than 120 new nonstop routes made possible through its efficiency.

As the national flag carrier of Vietnam, headquartered in Hanoi, Vietnam Airlines operates 92 routes to 20 domestic and 29 international destinations with average 400 daily flights. Vietnam Airlines is certified as a 4-Star Airline by the international air transport rating organization SKYTRAX.
